Our informant told us the following about Jane Gibson's activities in 1922 with particular reference to what she said during the investigation conducted under Mr. Mott.

She first described the woman she saw in general and said she had seen her somewhere before, but did not know where and then after Mrs. Hall's name was mentioned, Mrs. Gibson said that Mrs. Hall was the woman, that she had seen her at some rummage sale in the church.

She identified neither Willie Stevens nor Henry Stevens at any time.

As to Henry Carpender, she went to the Pennsylvania Station in New Brunswick with Detectives David and Mason, picked out Mr. Carpender and also put down the numbers of his automobile license.
